### PROFESSIONAL EXPERIENCE

#### 1. Global Modular Partners, LLC

3/2021 – To date

“Civil Engineer”, [www.globalmodularpartners.com](http://www.globalmodularpartners.com)

- Handling construction and field engineering acquired in the Middle East branch.
- Preparing material, equipment and labor cost estimates and confirming costs are within the budget.
- Forecasting design and construction timeline.

#### 2. BACS - STC Station, Riyadh, KSA

9/2017 – To date

“Section Engineer”, [www.bacsmp.com](http://www.bacsmp.com)

- Spearheading the interface between Civil, Finishes, MEP and Transit Systems contractors deployed on site.
- Managing the construction of the station concrete works, architectural finishes, façade works, and landscaping works.
- Proactively coordinating with our in-house engineering team as well as the deployed contractors to avoid any execution issue during construction.
- Deploying a synergetic approach to monitor and control project schedule with the responsible team members.
- Tracking and communicating project risks and opportunities.
- Evaluating potential problems and technical issues. Developing the appropriate solutions considering the implications of the cost, relevant stakeholders, and the schedule.
- Verifying and reviewing payment certificates.

#### 3. BACS - Viaducts Pre-cast Yard, Riyadh, KSA

10/2015 – 9/2017

“Field Engineer”, [www.bacsmp.com](http://www.bacsmp.com)

- Responsible for managing rebar erection, casting and minor repairs of the segments.
- Proactively coordinating between construction and engineering to ensure that the production follows the schedule, quality and within the cost estimates.
- Interactively addressed the schedule updates with the controls department to ensure construction met the targeted dates.
